About me

I'm Naïm, an undergrad student in Computer Engineering at University of Lleida (*UdL*). My goals are to learn about software development, get to do research on new fields and to improve as an engineer. I'm well-versed in some programming languages, but new ones are not a barrier for me. I believe that perseverance and teamwork are some aspects of mine that can be positive in a workplace.

Education

University of Lleida, Degree in Computer Engineering Sept 2023 – now

- **Current grade:** 8.1/10.0
- **Specialization:** Computation

First Certificate in English, Cambridge July 2022
